

Customized, computerized medical nursing carts with maximum flexibility

Mittwoch's new nursing carts are build exactly per client requirements and function as mobile workstations for nurses, to provide them with quick computer access to medicine, equipment, and essential information. This effective solution improves work quality and eliminates human errors.

Main specifications:

- 1 Cart chassis made of oval aluminum profiles.
- 2 Cart panel made of plastic coated machined aluminum (alucobond).
- 3 Worktop made of HPL (TRESPA), a sturdy substance, durable to disinfectants and detergents.
- 4 Aluminum pull-out keyboard pad with pull-out tracks.
- 5 Medicine cabinet made of painted metal.
- 6 Central locking system locks all medicine drawers.
- 7 24 medicine drawers, up to 10 dividers per drawer.
- 8 Additional slider for patient's name in front of each drawer.
- 9 Quality 5" plastic casters (two with brakes).
- 10 Two plastic bumpers at the bottom prevent accidental damage.
