

NCR SelfServ™ Checkout Mini

Looking to extend your self-checkout area to maximize customer satisfaction without sacrificing floor space?

YES

NCR SelfServ Checkout Mini enables more self-checkout lanes in a fraction of the space without compromising security

The new Mini gives you flexibility to add special lanes for smaller baskets or card only purchases but only requires 45% of the floor space. The Mini supports the same familiar user and attendant experience and gives you the peace of mind with security and monitoring options.

- **Fully integrated solution leveraging kiosk technology**

The NCR SelfServ Checkout Mini is powered by the 17-inch NCR SelfServ 60 integrated kiosk workstation. Similar to full-function models, the Mini provides NCR's patented 2ST™ two-sided thermal receipt printing, status tri-light for alerting attendants and optional coupon collection bin. The integrated NCR RealPOST™ Single-Window Scanner allows consumers to scan items quickly.

- **Flexible configuration options**

Standard configuration includes a free-standing pedestal mount with input shelf, security scale with optional bag rack and storage space in the base for a UPS. Alternative countertop configurations are also available with a modular scale option to place on a countertop or custom-designed checkstand.

- **Seamless integration with your existing systems**

The NCR SelfServ Checkout Mini leverages the NCR SelfServ Checkout Integration Framework, which is built on the fifth generation of NCR's patented Transaction Broker technology. This technology seamlessly links the business logic in your legacy point of sale (POS) to the self-service user interface. The XML-driven technology gives you control to easily and rapidly define and implement new functionality.

- **Enhanced serviceability**

The flexible tilt mount and front accessible bezel make accessing internal components easier and keep downtime to a minimum. NCR Services enhance the solution with a comprehensive services package that maximizes system availability and your investment.
