

I AM THE NCR SelfServ™ 28

Fully weatherized freestanding cash dispenser

The only fully weatherized, freestanding ATM on the market

To be the stand out leaders in self-service banking your brand has to be where your customers are. The NCR SelfServ 28 does just that because it can be placed completely anywhere you want it to be—at sporting events or even music concerts. Indoors or outdoors, the SelfServ 28 can be positioned with minimal infrastructure requirements—providing you with maximum brand exposure and large transaction volumes and revenue generation opportunities.

Proactively fixes itself

Keep your ATMs up and running, offering your customers the transactions they want, when and where they need them. NCR's express recovery and self-healing technology reduces downtime from hours to minutes—making your ATMs available around the clock.

Keeps you informed

Successful network management is about having the right information at your fingertips. NCR SelfServ ATMs provide data in real-time on configurations, software versions and the activity levels of each module. So you can see, understand and control your entire network—and make more empowered decisions.

Inspire trust in your ATM network

Our SelfServ ATMs are designed to defend against known and unknown fraud attacks, even before they start. Ask us about our multi-layered approach to ATM security including logical and physical solutions. For example Solidcore Suite for APTRA™ protects against the execution of unauthorized code on your ATM network and our Skimming Protection Solution protects cardholder data from card skimming attacks.
