

NCR RealPOS™ Flip-Top Cash Drawer

Looking for a compact cash drawer that offers security in a robust design?

YES

The NCR RealPOS Flip-Top Cash Drawer is ideal for seated cashier environments where real estate is at a premium

Its space-saving design and unique top access makes it user-friendly and enables it to be installed in areas where a front opening drawer is not desirable.

- **Offers all the features of a larger cash drawer in a compact and functional design**

A large front media slot with under-the-till storage area, adjustable bill positions and removable dividers makes it suitable for Euros, Sterling and many other currencies.

- **Ensures the highest level of security for your point-of-service workstation**

With steel construction, a 2-position lock and a lockable stainless steel till lid to enclose media safely, you don't have to sacrifice security.

- **Speed and efficiency where you need it**

Rigorous testing ensures the lid will consistently open beyond 80 degrees, offering full access to the till and reducing cashier frustration. This allows for faster transaction times which lead to improved customer service.
