

I AM THE NCR TOUCHPORT™ 120

SelfServ™ Kiosk

Check-in just got easier for you and your passengers

Whether it's a weekend getaway, a business trip or a full-blown family vacation, people are traveling more than ever before. And more travelers creates busier airports, longer lines and increased pressure on your staff. That's where we can help. NCR TouchPort 120 is a compact self-service kiosk that lets your passengers check-in, choose their seat, print their boarding pass and pay for upgrades with less hassle.

A seamless experience

The TouchPort 120 helps you deliver a seamless brand experience to your passengers. The slim footprint and ability to run software from a number of different channels lets passengers choose how they want to connect with you—on the web, via mobile or kiosk.

Attracts passengers

We've made sure that the TouchPort 120 is a good-looking kiosk that complements your brand. It has a clean, simple design and large 17" touchscreen to attract passengers and drive self-service adoption. Plus, we offer both countertop and pedestal models that help you manage traffic flow as your needs change.

Access for everyone

The TouchPort 120 not only looks good, it is highly configurable with the latest user interface technology to provide an exceptional experience for all passengers. An optional UNav keypad is ADA compliant when delivered and expands accessibility to those with limitations.
