

I AM NCR TOUCHPORT™ 100

Travel just got easier

Whether it's a weekend getaway, a business trip or a full-blown family vacation—nowadays people are traveling more and more. This means busier airports, longer lines and increased pressure on your staff. That's where we can help. NCR TouchPort 100 is a compact self-service kiosk that lets your passengers check-in, choose their seat, print their boarding pass and more without the hassle of lining up at the check-in desk.

A seamless fit

The TouchPort 100 is designed with you and your customers in mind. With a slim footprint and the ability to run software from a number of different channels, the TouchPort 100 allows you to create a seamless brand experience no matter how your customers choose to connect with you—on the web, mobile or kiosk.

Looking good

We've made sure that the TouchPort 100 is a good-looking kiosk. It has a clean, simple design and a large 19" touchscreen to attract passengers and drive self-service adoption. And once your customers are there, the flexible, modular TouchPort 100 will keep them coming back by meeting their individual self-service needs now and in the future.

Make it useful...and profitable

The TouchPort 100 not only looks good, it provides all of the functionality you might need in a self-service kiosk. Your passengers can scan their passport or boarding pass to pull up check-in details, print their boarding passes and bag tags, and pay for seat, cabin upgrades and even duty free goods with integrated credit card or near-field communication (NFC) readers on the kiosk.

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 450 million transactions daily across the retail, financial, travel, hospitality, telecom and technology industries. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with over 26,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries.

Make it easy

We know that having your self-service kiosks up and running is key to your business and your passengers' experience, so we have designed the TouchPort 100 for a 24/7 environment. This kiosk can be managed and monitored remotely so that your operations run smoothly.

We've also made it easy to retro-fit features, so you can future-proof your investment and let the kiosk grow with you.
