

I AM THE NCR SELFSEV™ 85

The NCR SelfServ 85 offers you a sleek interactive kiosk your customers can use in any retail environment.

The NCR SelfServ 85 helps you engage customers, deliver information and promotions, and enable transactions through a large screen kiosk with a stylish appearance and small footprint. Multi-touch capabilities and integrated peripherals provide flexibility and functionality, creating an intuitive, convenient and secure experience for your customers.

Help your associates close the sale

With the NCR SelfServ 85, you can give your customers an attractive new way to find information about your products or make purchases in your store. The kiosk also enables you to arm your associates with an additional sales tool, expanding their knowledge and allowing them to help customers find what they need in an engaging and interactive way.

Out of stock? No problem.

In today's retail environment, it's a challenge to have the right products in the right store at the right time. Kiosks offer a convenient option to let your customers find and purchase out-of-stock items and have them shipped either to the store or their homes, preventing a lost sale to a competitor or to an online retailer. Kiosks can be used by smaller store formats to access a retailer's full assortment, and to recommend coordinating items and accessories, or create upsell opportunities.

Make your customers come back for more.

The NCR SelfServ 85 can help you improve the in-store experience, making it easier to engage, influence and retain customers. Today's customers are time-starved, and anything you can do to make it faster, easier and more convenient for them to shop in your store can translate into customer loyalty and a growth in top line revenue.
