

Build your own ergonomic workstation with Loctek

Enriching your ergonomic experience via inviting more ergonomic helpers to your workplace. It is also a thing to be comfortable when typing, standing and facing a monitor for 8 to 10 hours all day. We provide various **ERGONOMIC ACCESSORIES** you may need to upgrade ergonomic experience in space-saving and body-caring.

Selecting a suitable **MONITOR ARM** is crucial for keeping a healthier watching distance and angle, which helps save desk space as well. In addition, a **DESK PRIVACY PANEL** may be needed to create a low-noise and private workspace. After that, when typing, a **KEYBOARD TRAY** allows adjusting the most comfortable position for different users. In order to keep the workplace well organized, a **CABLE MANAGEMENT TRAY** could be a smart choice for you. Another space-saving solution is a **CPU HOLDER**, which creates an ample under-desk space. As for under-desk accessories, our **ANTI-FATIGUE MAT** and file **CABINET** are professional in easing your back pain and upgrading the storage room. Apart from all the above, we are producing and outsourcing more cost-effective accessories for your health and efficiency in your workspace.
